## Custom Solutions in Food Preparation for Ready-to-Eat Meals

GAIN THE EFFICIENCIES AND OUTPUT OF A HUGHES INTEGRATED SYSTEM FOR CONTINUOUS PROCESSING FOR READY-TO-EAT FOODS.

COMPLETE CONTINUOUS PROCESS LINES FOR PREPARED FOODS

*We're ready for you!*

**For ready-to-eat food preparation, Hughes is a guaranteed winner.**

We offer a full line of handling, processing and packaging equipment to bring you up to speed for this rapidly growing market sector. Our continuous process systems dramatically improve production rates and enhance food safety.

**GAIN THE EFFICIENCIES OF A CONTINUOUS LINE**

With a continuous processing line from Hughes, you'll significantly increase output over batch processing, while producing quality prepared foods that retain the fresh appearance, proper texture and great taste consumers demand.

**CUSTOM SOLUTIONS**

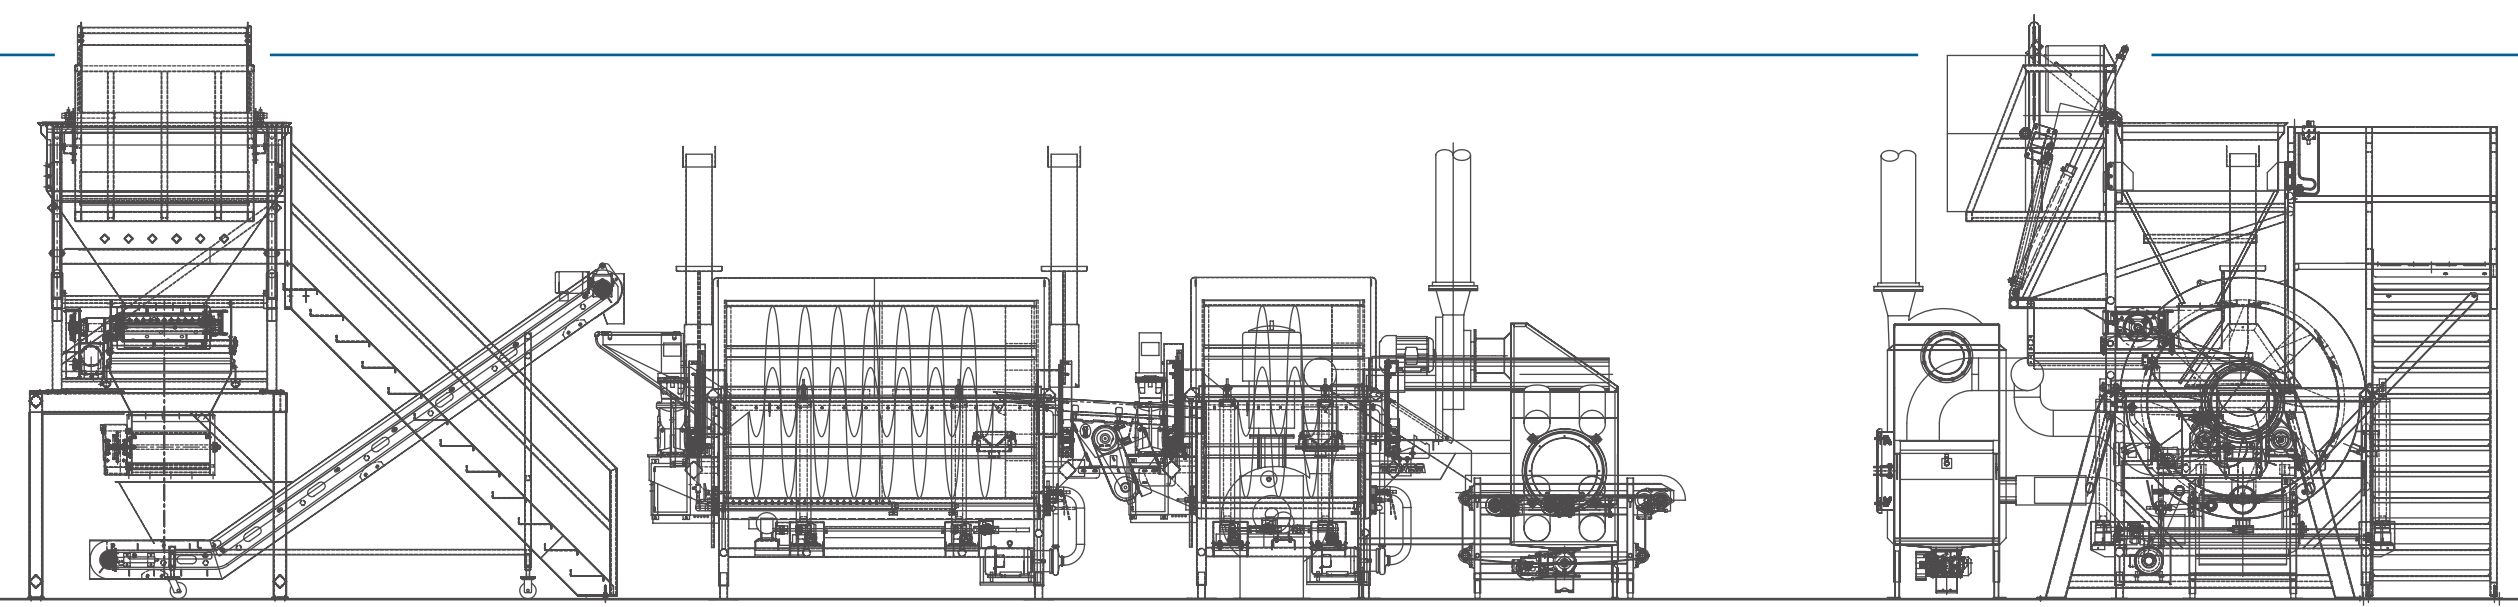

Each prepared foods system is unique. The experts at Hughes Equipment Company can work directly with you to design an integrated line. Or we can work directly with your engineering firm to assist in designing a system that will provide the highest productivity.

**EQUIPMENT FOR ANY PREPARED FOOD**

Our continuous systems can include tote dumpers, conveyors, washers, blanchers, coolers, peelers, cutters, mixers, blenders, dewatering systems, fillers, flash freezers, and packaging and wrapping machines.

With food safety in mind, all our equipment is designed for efficiency and thorough sanitization.

**Continuous Cooking/Cooling Solution**
